of Environmental Protection
Carroll Building
428 East State Street, 2nd Floor
Trenton, N.J. 08625

July 28, 1986

Dear Elissa:

As per your request, a copy of our remedial review comments on the Installation Assessment Report for Fort Monmouth was transmitted to you in a letter dated May 20, 1986. In addition, at that time, you informed me that we would receive DEP's comments as soon as its review was complete.

Further, at a meeting on February 10, 1986 between Fort Monmouth, EPA and DEP, it was agreed that upon EPA's and DEP's remedial review of the report a meeting with the base would be arranged to discuss our respective comments.

Since we would like to schedule that meeting in the near future so as to continue progress with this project, we would appreciate your forwarding us DEP's comments, if any, on the report.

Your cooperation and attention to this matter is much appreciated. If you have any questions, feel free to call me at (212) 264-4706.

Sincerely yours,

Helen Shannon
Environmental Protection Specialist
